Deep Dive Session D

IEP Bootcamp

Kathleen M. Everett, Ed.D., Professor, Kennesaw State University, Kennesaw, GA

Creating a realistic, quality IEP can be a terrifying process. There are so many parts to know about and understand. This 4 hour deep-dive session will provide participants with all of the tools needed to develop IEPs that tell the story of the student.

From writing effective present levels to creating goals/objectives, you will learn about each part of an IEP, why it is important, and how to create each part to obtain what you need for the student.

Learning Objectives:

1. Develop relevant student profiles including student strengths, the impact of the disability, and current performance levels;
2. Utilize data to create measurable goals, monitor progress, and make data-driven instructional decisions;
3. Increase student, parent, and teacher engagement in the IEP process; and
4. Plan appropriate instructional and assessment accommodations.

About the Speaker:
Dr. Everett is currently a professor at Kennesaw State University. Dr. Everett has conducted seminars nationally and internationally. Previous experience includes serving as the Director, Special Education; Director, Federal Programs; Principal and District-wide Test Coordinator. Dr. Everett has over 30 years of personal and professional experience in special education. She is a leading advocate for those that cannot advocate for themselves. Dr. Everett’s strong commitment to working cooperatively with all stakeholders for the benefit of all children has earned her the respect of parents, teachers, peers, and administrators. Her personal and professional experience and knowledge about inclusive environments provide a wealth of information for parents and teachers alike.
